Cinematic Chatter

By Malcolm Miller

Hello everybody! During World War II Gary Cooper made a 23,000 mile tour of the South Pacific. He has wanted to go back ever since. Gary Cooper was born in Helena, Montana, the son of Charles Henry Cooper, a former British barrister who later became an Associate Justice of the State Supreme Court of Montana. When he was nine years old, Gary's parents sent him to Dunstable School, Bedfordshire, England, for four years. After two years, at Grinnell College he returned to Helena to work on a local newspaper as a cartoonist. He spent five years on the paper and then decided to try for a better job in Los Angeles. One day he ran into two friends from Montana who admitted they were stranded in Hollywood, but were making ends meet by falling off horses and such for motion picture studios. Cooper, by this time nearing the end of his financial rope, went to work as an extra and stunt man for \$10 a day. When he learned that Tom Mix was getting paid \$17,500 a week, Cooper went home, sold his drawing board and pointed himself toward a successful movie career. He paid a cameraman \$65 to make a test run of him, took on an agent and did everything possible to help advance his cause. Luck helped, too. Cooper was picked by Hans Eisler, then producing Westerns, to play opposite Eileen Sedgwick in a two-reel movie. He was seen, if one looked closely, in other roles and not long after his discovery, Samuel Goldwyn hired Cooper for the part of "Slim" in "The Winning of Barbara Worth." It was at this

time that he changed his name from Frank James Cooper to Gary. Cooper went to Paramount and made some pictures and then he worked in the picture "Wings" and from then on Cooper was on his way up. See you at the movies—Mal.

Mrs. Bertha Orr, office secretary, was instructed to order an additional supply of the FEC booklet, "Beef Bonanza in the Rich Glades Area of Florida," for free distribution to the public. She was also instructed to mail to all C of C directors in advance to regular board meetings the agenda of business to be taken up at a scheduled meeting, together with a copy of the minutes of the previous meeting.

The program, which begins at eight o'clock, will be on "Lifesaving." The Program Committee stated, in their announcement, that the speaker should be of special interest to all people in the Everglades. The committee pointed to the fact that so many Glades tragedies could be avoided by a basic acquaintance with water safety and lifesaving methods. Special invitations have been extended to members of local boat club, law enforcement officers and school children.

Burial Grounds Sought For Negroes

The urgent need for additional burial grounds for Negroes of the Glades area at the Port Mayaca Cemetery was discussed by the tri-city Port Mayaca Cemetery Commission at a meeting in the Pahokee City Hall Monday night, with Walter Ashley of Belle Glade, chairman, presiding.

The commission reported to Rev. J. B. Adams, a representative from the Negro Ministers Alliance of Belle Glade, that at the present time there are only six lots left at the cemetery for the burial of Negroes, but the commission is negotiating with Bessemer Properties, Inc., owner of the land surrounding the cemetery, for additional space for the Negro section.

A letter from County Commissioner Paul Rardin of Canal Point was read at the meeting in which Commissioner Rardin requested information as to what the Port Mayaca Cemetery Commission and the three cities it represents, South Bay, Belle Glade and Pahokee, are doing to provide ample space for the burial of Negroes in the Glades.

The commission instructed its secretary, Mrs. Dorothy Graham, to send Commissioner Rardin a

reply to his inquiry. Mrs. Graham was also instructed to serve notice to all persons reserving lots at the Port Mayaca Cemetery that the money for the lots must be received by the commission within 90 days or the reservation will be cancelled.

Tower

You see a familiar scene — a peaceful, prosperous Southern countryside.

What you *don't* see is the miracle of microwaves. Yet the miracle is there.

By means of microwaves, radio relay speeds Long Distance telephone calls and television programs through space without wires. It can carry hundreds of calls at one time.

Advances like radio relay are the work of telephone scientists and engineers, who are always seeking and finding better ways for us to serve you. But it takes more than this. To get investors to supply the money to continue expanding and improving telephone service requires a fair profit on the money invested in telephone property.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

**If you want to be paid
your interest as current income—
invest in 3% Series H**

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

Christian Science Group Of Canal Point

That permanent peace and harmony are within reach of mankind through the spiritual growth that reveals the true, spiritual nature of man in God's likeness will be emphasized in the Lesson-Sermon entitled "Man" which will be read at Christian Science services Sunday. Selections from the King James Version of the Bible include this citation from Romans: "And we know that all things work together for good to them that love God, to them who are the called according to his purpose" (8:28).

The following passage will be among those read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

"Mortals must gravitate Godward, their affections and aims grow spiritual. — they must hear the broader interpretation of being, and gain some proper sense of the infinite, — in order that sin and mortality may be put off."

"This scientific sense of being, forsaking matter for Spirit, by no means suggests man's absorption into Deity and the loss of his identity, but confers upon man enlarged individually, a wider sphere of thought and action, a more expansive love, a higher and more permanent peace" (285:15).

The Golden Text is from Psalms: "Mark the perfect man, and behold the upright: for the end of that man is peace" (37:137).
